Fighting to Protect Our Liberty and Freedom

Join us in honoring the following Texas Tea Party Champions

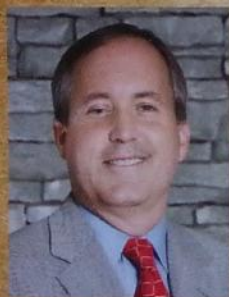

Lieutenant Governor David Dewhurst

David Dewhurst has been our Lieutenant Governor since 2003. An Air Force veteran and patriot, David has also served in the Central Intelligence Agency and as the Chairman of the Governor's Task Force Committee on Homeland Security in the wake of 9/11.

David Dewhurst is also a successful business owner of an energy and investments firm based in Houston.

State Senator Ken Paxton

Ken Paxton was elected to the Texas Senate in 2012. Prior to that, he faithfully served the people of Texas as a State Representative for 10 years. Ken is a graduate of Baylor University and the University of Virginia Law School.

He is a partner in the law firm of Pittenger, Paxton, Nuspl, & Crumley where he specializes in estate planning, probate, real estate and general business matters. He also owns and operates a title company in McKinney.

Representative Sid Miller

Sid Miller was first elected to the House in 2000, when he unseated the Democratic incumbent – the only Republican in Texas that year to defeat a Democratic lawmaker. He immediately made his mark on the legislature when he wrote a bill requiring a woman to have a sonogram prior to undergoing an abortion. The idea behind the required sonogram is that if a woman witnesses the developing child, she might decide to give birth, rather than procure an abortion.

Wayne Christian

Wayne Christian is the former president of the Texas Conservative Coalition, a bipartisan caucus of conservative legislators. He was also a board member of the Texas TEA Party Caucus. During his tenure in the legislature, Christian was heavily involved in energy and oil and gas issues. A financial planner, Christian is an agent of Woodbury Financial Services. He holds a Bachelor of Business Administration degree from Stephen F. Austin State University.

Who We Are

We are a group of men and women who are dedicated to advancing the principles of limited government and free markets.
